ABOUT THIS DOCUMENT

Welcome to your bespoke catalogue.

Please use this document to order your site signage.

Any sign in this brochure can include any logo of your choice.

What you can expect from us:

Fast delivery of your signs

Please tell us when you need them on site.

Low prices specially agreed on all items

No minimum order / no hidden extras.

Great quality!

All signs available in 3mm rigid plastic for durability.

Indicates supplied in composite aluminium for extra rigidity and toughness.

Good reliable service

We understand how you operate... Please tell us what you need and when you need it.

Doing our bit for the environment

This document is available to you electronically:

EXCLUSION ZONE

• Exclusion zones must be shown on the exclusion zone plans to ensure they are well communicated throughout the project.
• Clear demarcation of the zone must be in place before works commence.
• Signage must be used to inform people of men working above.
• If the exclusion zone affects a main highway the highway should ideally be changed, if this is not possible it must be temporarily blocked off with a spotter on the ground marshalling operatives.
• Once works are complete, exclusion zones should be removed immediately.
• Anyone found to be tampering or ignoring exclusion zones will be dismissed from site.
• If you are working at height without an exclusion zone in place or on the plans you will be removed from site.

5				Temporary works	YES/NO
				Demolition	YES/NO
				Piling	YES/NO

Supervisors must ensure that all relevant hazards and control measures are communicated to their teams

Key Lock Cabinet

The image shows a red wall with several safety-related items. On the left is a fire alarm control panel with a grid of buttons and a small screen. Below it is a fire point sign featuring a white hard hat icon and a flame icon. To the right of the sign is a large white sign with the text 'Fire Point' in red. Further right is a blue and white 'Fire action' poster with a list of instructions and icons. At the bottom of the wall are three white rectangular panels, each with text indicating its purpose: 'A3 space for Fire Plan', 'A4 space for Howler Alarm', and 'A5 space for Fire Evacuation Route Map'.

Fire Point

Fire action

- Report the alarm
- Close all windows and doors
- Follow the instructions of the fire warden
- Do not return to the building until authorised to do so
- Do not use the lift

A3 space for Fire Plan

A4 space for Howler Alarm

A5 space for Fire Evacuation Route Map

ENGLOBE

[illegible]

Unexploded Ordnance

Probability of encountering UXO during excavations is low. It should be noted that if UXO is encountered, likelihood of detonation is low.

Care should be exercised whilst conducting groundwork. Upon discovery of a UXO, cease work immediately and contact a member of Berkeley Homes Project staff.

CT69 | Speed Bump Kits 60mm High Heavy Duty - £80 per metre, including all fixings

The Ramp People's heavy duty speed bumps are made from high-density, recycled rubber. These heavy duty speed bumps also feature an internal steel plate, making them more durable and able to withstand heavier loads. Each mid-section has a solid black and painted-yellow half, with 8 cats eye reflectors per mid section, making more visible at night. Universal fixings for tarmac or concrete come supplied.

60mm high speed bumps have been designed to be crossed comfortably at speeds up to 10mph.

Speed bumps warning signs available with 10% discount when buying with speed bumps, just use the code TRP-SIGN at the Basket summary before checkout.

Stanchions

These robust Stanchions are the ideal way of displaying signs on a temporary basis.

- Made from steel and painted with grey primer to discourage rusting.
- To hold Stanchion Signs measuring 450 (H) x 600 (W)
- Clips are provided for retaining sign into the stanchion.

Code Description

STA1	600x450mm Stanchion only	£24.50
STA99	1050x750mm Stanchion only	£34.50

Stanchion Signs

Stanchion signs are available in choice of 2 sizes to fit in stanchions shown on page 21.

Signs are also available in highways grade reflective.

Please call for reflective prices

FROM £39 ➔

REFLECTIVE TRAFFIC SIGNS

Class Ref 1 Reflective Traffic

& Works Safety Signs

Improve safety on your site, loading areas and the approach roads to your premises.

- Manufactured from 3mm aluminium with a durable Class Ref 1 reflective face.
- Traffic signs comply with BSEN12899-1:2001.
- For posts see opposite page.

Additional signs and materials available, please call for a quote.

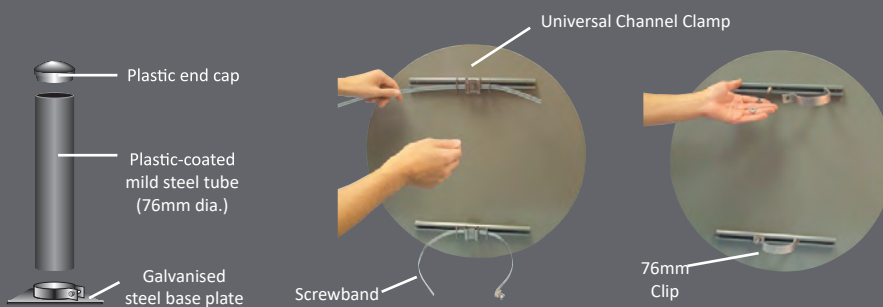

Size (H x W)	Shape	Wall	Post
600 x 680mm	Triangle	£90.75	£93.50
600mm (dia.)	Circle	£110.00	£113.00
450 x 600mm	Rectangle	£143.00	£146.00
600 x 450mm	Rectangle	£143.00	£146.00
600 x 600mm	Octagon	£110.00	£113.00

Post and Fixings

Plastic coated, hollow steel posts and 76mm clips to securely mount your Reflective Traffic Safety Signs.

- Available in three lengths, we recommend the use of a baseplate and to allow approximately 600mm sink below the ground.
- Plastic end caps are available for the tops of posts.
- The screwband fixing and universal channel clamp will allow fixing to existing posts up to 160mm in diameter.
- Each sign requires 2 x 76mm clips, or 2 each of the screwband and universal fixing.

Code	Description	Price	Code	Description	Price
PED80	1.75m Post – Grey	£68.95	PSX9ZA	Plastic End Cap – Grey	£1.82
PSX6ZA	2.5m Post – Grey	£89.18	PSX9ZB	Plastic End Cap – Black	£1.82
PSX6ZB	2.5m Post – Black	£89.18	PSY3ZA	76mm Clip	£9.88
PSX7ZA	3.6m Post – Grey	£133.12	PSY4AA	Screwband Fixing	£14.30
PSX7ZB	3.6m Post – Black	£133.12	PSY4BA	Universal Channel Clamp	£7.27
PSX8ZA	Baseplate	£11.70	TRAF997	Post Fixing Bracket	£6.75

POSTS AND MIRRORS

Highway Glow Post Bollards

For use on highways and filter lanes to help prevent collisions.

- Moulded plastic bollards are fitted with BS873-6 Des 2 compliant reflective sleeve for added visibility day and night.
- Can be fitted direct into cats eyes or into reusable rubber bases which can be attached to the road surface via 4 fixing bolts (available separately).
- SSB30 comes with base.

Code	Description	Price
SSB30	750mm Swing Back Post	£38.50
GP14	Unibase Rubber Base	£13.95
TRAF2000	Asphalt Fixing Bolts – Pack of 2	£8.99
TRAF2001	Concrete Fixing Bolts – Pack of 2	£8.99

Industrial Safety Mirrors

Help increase your site safety with these unbreakable traffic mirrors.

- Available in 3 sizes and 2 colours (800mm only available in white).
- Help to reduce any accidents or collisions at junctions.
- Assists drivers with blind spots
- Mirrors are supplied with a universal fixing kit for wall or post mounting. Full instructions are also included with each mirror.
- Each mirror is held in place in a durable frame.

Code	Size (dia)	Colour	Price
TRAF1022S	500mm	White	£165.95
TRAF1018S	500mm	Red	£165.95
TRAF1023S	620mm	White	£215.55
TRAF1019S	620mm	Red	£215.55
TRAF1024S	800mm	White	£285.70

Hinged TOPLOK Parking Posts

This post prevents unauthorised access and provides control without the need for supervision.

- Only the authorised user's key will release the locking mechanism.
- Baseplate of galvanised cast spheroidal graphite (SG) iron, with 2 bolt holes.
- Height: 750mm.
- Wall thickness: 3.2mm.
- Tubular body: 64mm.
- Weight: 8kg.

Code	Description	Price
TRAF802	Galvanised Post	£149.99
TRAF803	Yellow Powder Coated Post	£147.99
TRAF804	16mm Fixing Bolt	£6.99

Interior Convex Acrylic Mirrors

Maintenance free security.

- Pure silver mirror gives a crystal clear reflection.
- Made from premium quality, UV inhibited, impact-resistant acrylic.
- Feature medium density back and PVC surround.
- Unique 'J' bracket fixing allows maximum adjustment.

Code	Description	Size	Price
IM1	Circular Mirror	450mm (Dia.)	£106.00
IM2	Circular Mirror	600mm (Dia.)	£164.00
IM3	Rectangular Mirror	400 x 600 mm	£164.00

TRAFFIC CONES

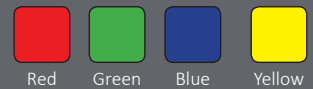

Sand Weighted Traffic Cones

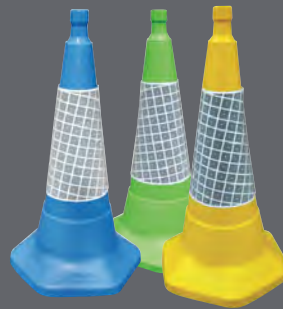

This range of cones has been specifically designed to meet the requirements of the Road and Street Works Act 1991.

- Made from super-tough polymers and tested to -16°C.
- Supplied with BS 873 D2 reflective sleeve for extra night time safety.
- Can be stacked to save valuable space.
- Red sand weighted cone is available in 3 sizes.
Please see price box for details..

Colours available:

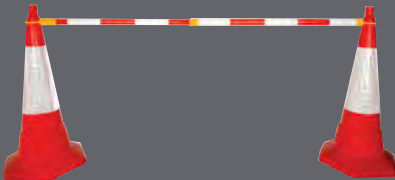

Code	Height	Colour	Price
TRF0001	450mm	Red	£6.99
TRAF810	750mm	Red	£12.99
TRAF811	1000mm	Red	£19.99
TRAF879	750mm	Green	£12.99
TRAF880	750mm	Blue	£12.99
TRAF881	750mm	Yellow	£12.99

Extending Barrier Cone Pole

- Designed to fit over 2 traffic cones to provide quick and easy demarcation
- Cone poles feature 80mm (dia.) end loops allowing for use with virtually any traffic cone
- Extends from 1100 to 2100mm
- Lightweight and portable, can be easily stored when not in use
- Suitable for temporary car park barriers and blocking of parking bays
- Available in red/white or black/yellow striping

Code	Colour	Price
TRAF704	Black/Yellow	£21.20
TRAF705	Red/White	£21.20

Tensacone® Barrier Kit

Creates a more effective barrier than cones alone.

- Ideal for construction sites, warehouses and highway agencies.
- Simple to use – pull the tape from 1 unit and connect to the top of another cone (placed up to 3.65 metres away) to create a temporary highly visible barrier in seconds.
- Kit contains: 4 x Sand Weighted One Piece Traffic Cones and 4 x Tensacone® Barrier Units.
- Each Tensacone® unit contains 3.65metres of retractable webbing.
- Webbing available in red and white or black and yellow (orange casing as standard).

Webbing colours available:

Red/White Black/Yellow

Code	Description	Price
TRAF909/R/W	Tensacone® – Red/White Webbing	£54.75
TRAF909/BK/Y	Tensacone® – Yellow/Black Webbing	£54.75
TRAF910/R/W	Tensacone® Kit – Red/White Webbing	£241.00
TRAF910/BK/Y	Tensacone® Kit – Yellow/Black Webbing	£241.00

TRAFFIC CONES

Roadhog Traffic Cone

Durable and robust cone ideal for use in car parks.

- Single piece construction moulded from 100% recycled PVC.
- Weighted base for added stability.
- Fitted with class R1B reflective sleeve which complies with EN13422.

Code	Height	Price
TRAF812	500mm	£9.50
TRAF813	750mm	£17.50

Dominator Traffic Cones

Offer great reflectivity!

- 2-part cone with heavy-duty thermoplastic base for excellent stability.
- Cell walls prevent water migration in the event of damage, vastly improving the durability and longevity of the sleeve.
- Certified to BS873-8 D2.

Code	Height	Price
TRAF1028	500mm	£15.50
TRAF814	750mm	£17.50
TRAF815	1000mm	£22.50

Roadhog No Waiting Cone

Convey a visual warning to motorists with this sturdy one-piece cone.

- Made from 100% recycled, durable plastic.
- Will withstand the rigours of daily use.
- Features a distinctive black base area for added stability.

Code	Height	Price
PED200	500mm	£19.99

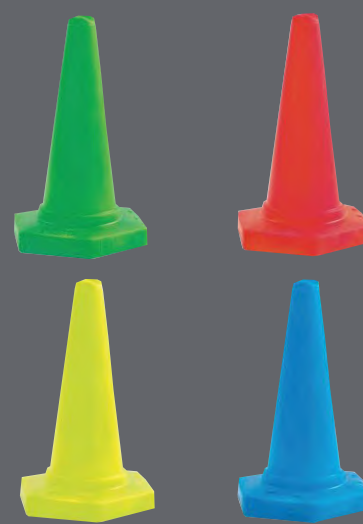

No Waiting Cone

Identify temporary parking restrictions.

- A highly visible yellow cone with a raised moulding showing the 'No Waiting' symbol on all sides.
- Excellent stability is achieved by a combination of weight (3.5kg) and a base width of 400mm.
- Can be neatly and safely stacked to save space when not in use.

Code	Height	Price
NCW1	570mm	£12.99

Colour - Coded

Warning Cones

Highlights hazards indoor and out.

- Choose from 4 highly visible colours.
- Sand weighted base area for added stability.
- Measures 450mm (H).
- Durable, moulded plastic construction.
- Price per cone. Please specify colour (red,yellow,blue or green).

Code	Height	Price
TRAF218	450mm	£9.50

Anti-Slip Tapes

Reduce risk of slips, trips and falls in and around the workplace.

- Coarse surface ensures maximum grip in wet or greasy conditions.
- Suitable for use in heavy traffic areas on stairs, ramps, steps, entrances and exits.
- Simply cut to size, peel off backing and apply.
- If using outdoors, we recommend using a primer and edge sealer to improve fixing and to prevent curling – see price box. Not suitable for use on wood.
- Do not apply below 12°C.

Reflective Self-Adhesive Tapes

Provide a means of highlighting hazards and danger areas.

- These tapes are 225 times more reflective than white paint.
- Made from highly reflective self-adhesive vinyl, they comply with BS 5378.
- Suitable for use indoors or out – simply apply to any clean, dry surface.
- Available in 2 sizes and colours.

SP Safety Posters

Working safely on sites

When working on site, always wear:

- A safety helmet.
- Safety shoes or boots.
- Overalls or suitable clothing (e.g. waterproof clothing).

To prevent accidents on construction sites, you need to:

- Have a positive attitude about safety.
- Know and follow basic safety rules and procedures.

Noise

- Wear ear protectors when needed.
- Make sure your ear protection fits properly.

Hazardous substances

- Always read the label and follow the instructions.

Misuse of electricity

- Check leads and cables for damage before you use electrical equipment.
- Do not make repairs unless you have been trained and told to do so.

If you spot a hazard

- Warn others, and take steps to prevent harm.
- Report the hazard to your supervisor promptly.
- Check make reports unless you have been trained and told to do so.

SCAFFOLD SAFETY

A scaffold is a temporary working platform, on or from which persons carry out work in connection with building or engineering construction.

GENERAL RULES

All material for any scaffold must be inspected by a competent person before being used.

The scaffold must be strong enough for the purpose for which it is being used.

Wherever timber is used it must be of good quality and must not be painted so as to hide the defects.

Never overcrowd scaffolds with people, equipment or supplies.

Incomplete scaffolds must be blocked off or must display a warning notice that it must not be used.

REMEMBER

A scaffold is not a structure for supporting plant or equipment.

REPORT ANY DEFECTS IMMEDIATELY TO YOUR SUPERVISOR

ENGLOBE

SP03 | 420x650mm £20.20

FIRE SAFETY

COMBUSTION IS ONLY POSSIBLE WHEN FUEL (WOOD, PAPER, GAS ETC), HEAT AND OXYGEN ARE PRESENT.

FIRES CAN BE PREVENTED BY NOT ALLOWING THE THREE TO COME TOGETHER.

WORKPLACE FIRES ARE MOST COMMONLY CAUSED BY:

- CARELESS SMOKING
- IMPROPERLY USED OR MAINTAINED ELECTRICAL EQUIPMENT
- IMPROPERLY STORED OR USED FLAMMABLE LIQUIDS
- POOR HOUSEKEEPING
- CARELESS USE OF PORTABLE HEATERS

FIRE PREVENTION

SMOKING

- If there is a company smoking policy it must be followed.
- If a policy should be adopted.
- Asbestos should be provided in areas where smoking is permitted.
- Cigarettes must not be thrown in waste paper bins, ashtrays or out of windows.

ELECTRICAL

- All electrical installations must be inspected and tested on a regular basis.
- Any frayed leads or faulty equipment must be reported.
- Do not use temporary wiring.
- Do not overload meters, circuits and outlets.
- Do not leave heating equipment in machinery rooms.

FLAMMABLE LIQUIDS

- Flammable liquids should only be used in areas with good ventilation.
- Flammable liquids should be stored in metal containers.
- Spills or leaks must be cleaned up immediately.
- Containers that have contained flammable liquids should be removed immediately.
- Flame retardant linings must be removed from any heat source.

HOUSEKEEPING

- All workplaces should be cleaned and tidied on a regular basis.
- Combustible scrap should be disposed of in secure metal containers which are emptied daily.
- If fire doors and exits must be kept clear.

HEATING APPLIANCES

- Heating appliances should be fixed rather than portable.
- Combustible material must be kept away from any heating appliance.
- All wiring should be inspected regularly.
- All heating appliances should have fire guards.
- All heating appliances should be approved for use.

ENGLOBE

SP04 | 420x650mm £20.20

WASTE MANAGEMENT

WASTE, IF NOT MANAGED CORRECTLY OR DISPOSED OF SAFELY, CAN POSE A THREAT TO THE ENVIRONMENT AND HUMAN HEALTH.

The Environmental Protection Act 1990 imposes a duty of care on persons concerned with controlled waste. The duty applies to anyone who produces, imports, carries, keeps, treats or disposes of controlled waste, or who has the duty of care in an offence with a penalty of an unlimited fine if committed on indictment.

WHAT IS CONTROLLED WASTE?

ANY WASTE FROM HOUSEHOLDS, COMMERCIAL, OR INDUSTRIAL.

The only exceptions to this are occupiers of domestic property and their domestic waste.

IF YOU HAVE CONTROLLED WASTE:

- When in your possession protect and store it properly.
- Withhold a description of the waste, including:
 - Any problems it may pose.
 - The type of premises the waste has come from.
 - The process that produced the waste.
- When in your possession protect and store it properly.
- When in your possession protect and store it properly.
- When in your possession protect and store it properly.

ELECTRIC SHOCK EMERGENCY RESUSCITATION

SafeGuard Yourself

If a patient collapses due to ELECTRIC SHOCK, break the circuit by switching off the current at the main, removing the plug or switching the circuit off. If unable to reach the cable, socket or main, use an insulating object to push the cable away from the source of electricity. Do not touch the patient.

Check Casualty Response

If unconscious, open the airway and check for normal breathing for up to 10 seconds.

If the casualty is breathing, place in the recovery position (D, and 999 for an ambulance, monitor and record breathing every ten minutes or until medical assistance arrives.

If Casualty is Not Breathing Normally

If the casualty is not breathing normally, start CPR immediately and commence CPR.

Commence CPR

Commence CPR. Alternate 30 chest compressions with two rescue breaths. Repeat this sequence as necessary.

SAFE MANUAL HANDLING

As a member of the public, you are responsible for your own safety. The information in this poster is NOT a substitute for adequate training. All activities should be carried out under the supervision of a competent person. The information in this poster is NOT a substitute for adequate training. All activities should be carried out under the supervision of a competent person. The information in this poster is NOT a substitute for adequate training. All activities should be carried out under the supervision of a competent person.

1 ASSESS THE LOAD AND THE TASK

Make sure you are weight aware. Consider the load, the task you are doing and the distance you have to move the load to avoid any back strain or injury.

Remember to take the weight, reduce the frequency of lifting, plan your work and use the correct technique. To help you lift the load, use a lifting aid.

2 PLAN THE ROUTE

Take a route that is clear and free from any obstacles. If the route is long, then you should consider the time and effort required to move the load.

3 POSITION FEET

Place your feet apart with one leg slightly forward. Stand with your feet apart, one foot slightly forward, to help you lift the load.

4 GET A GOOD GRIP

Hold the load firmly with both hands, ensuring that you have a secure grip on the load. Use the correct technique to lift the load.

5 LIFT CAREFULLY

Use your legs to lift the load, not your back. Keep your back straight and your feet apart. Use your legs to lift the load, not your back.

6 PUT IT DOWN

Place a padding of the back to avoid any back strain or injury. Put the load down carefully, ensuring that you have a secure grip on the load.

SAT0075

SLIPS, TRIPS AND FALLS

A questionnaire for the purpose of identifying and controlling workplace hazards associated with slips, trips and falls. The information from this poster is not a substitute for adequate training. All structures provided are intended as guidelines only. Every employer is different and the situation for the employees involved needs to be based on the severity of the situation, taking into account the following: the severity of the injury and their role in the work.

- ## RISK ASSESS

Slips and trips are a common cause of workplace injury. A risk assessment is a systematic way of finding, assessing and controlling the risks of slips, trips and falls. It involves:

 - 1. Identifying the hazards
 - 2. Assessing the risks
 - 3. Controlling the risks
- ## SLIP HAZARDS

Slips are caused by a loss of traction between the shoe and the surface. This can be caused by:

 - 1. Wet, oily or greasy surfaces
 - 2. Loose objects on the floor
 - 3. Uneven or damaged surfaces
- ## TRIP HAZARDS

Trips are caused by an object or obstruction on the floor. This can be caused by:

 - 1. Loose objects on the floor
 - 2. Uneven or damaged surfaces
 - 3. Poor housekeeping
- ## FALL HAZARDS

Falls are caused by a loss of control while working at height. This can be caused by:

 - 1. Lack of training or supervision
 - 2. Poor work practices
 - 3. Inadequate safety measures
- ## OTHER HAZARDS

Other hazards that can contribute to slips, trips and falls include:

 - 1. Poor lighting
 - 2. Poor housekeeping
 - 3. Inadequate safety measures

SAT0080

KITCHEN HYGIENE

Information on kitchen hygiene is available on the Internet at www.food.gov.uk and on the Food & Consumer Connections website. The poster is not a substitute for advice from a food hygiene adviser or for advice from the local authority. The advice in this poster is intended to be based on the advice of the local authority at the time of the poster's printing. It is subject to change without notice.

1. CLEANING ROTA

All catering establishments should have a cleaning rota to ensure that all areas of the premises are cleaned regularly. The rota should be based on the size of the premises and the type of food served. The rota should be signed by the person responsible for cleaning.

2. PERSONAL HYGIENE

Food safety is a collective responsibility and it is everyone's responsibility to ensure that food is safe to eat. This includes maintaining good personal hygiene. This includes washing hands regularly, wearing clean clothing, and not smoking or drinking alcohol while working.

3. CLEANING SURFACES

Food safety is a collective responsibility and it is everyone's responsibility to ensure that food is safe to eat. This includes maintaining good personal hygiene. This includes washing hands regularly, wearing clean clothing, and not smoking or drinking alcohol while working.

4. WASHING UP

When washing up by hand, it is important to use hot water and to wash thoroughly. This includes washing the inside and outside of the plate, bowl, or glass. It is also important to use a brush to clean the inside of the plate, bowl, or glass. It is also important to use a brush to clean the inside of the plate, bowl, or glass.

5. WASTE DISPOSAL

Food waste should be disposed of in a bin. The bin should be emptied regularly. It is also important to ensure that the bin is kept clean. This includes washing the bin regularly and ensuring that the bin is covered with a lid. It is also important to ensure that the bin is kept away from the food preparation area.
